BANDRASTER Suspension Solutions

for Exposed and Concealed Ceilings

INTRODUCTION

Bandraster is a suspension solution for exposed and concealed ceilings.

Bandraster is currently available in 50mm and 100mm width. It can be used with 24mm grid system.

CUSTOMER BENEFITS:

1. **REFERENCE FOR PARTITIONS:** Bandraster is generally used for drawing references for partitions.
2. **FLEXIBILITY:** Bandraster adds flexibility to the layout. The layout of modular partitions/furniture can be revised without disturbing the ceiling.
3. **ENDLESS POSSIBILITIES:** Bandraster breaks the monotony of steel angles and gives relief to the eye.

APPLICATIONS:

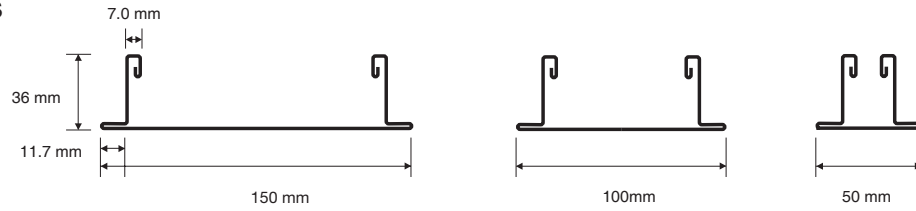

1. IT/ITeS, Voice based Call Centers
2. Modern Corporate Offices.
3. Banks and Insurance.
4. Retail.
5. Educational Institutions.
6. Hospitals

FEATURES

- Standard slots at 300mm centres
- Suitable for both Prelude 24 XL (stab) cross tees
- Sections up to 3.6 m in length
- Comprehensive range of accessories
- Color - Armstrong Global White
